Annual Meeting and Critical Care Update

Presented prior to ANESTHESIOLOGY 2012

October 11-12, 2012
Renaissance Washington DC Downtown Hotel
Washington, DC

Preliminary Program

Plan to attend this meeting if you are a(n)...

- Critical Care Specialists
- Perioperative Physicians
- Clinical and Research Scientists
- Intensivists
- Other Healthcare Professionals Interested in Critical Care Medicine

Online Registration is available at www.SOCCA.org

*Jointly sponsored by the American Society of Anesthesiologists (ASA)
and Society of Critical Care Anesthesiologists (SOCCA)*

Program Information

Target Audience

The SOCCA 25th Annual Meeting and Critical Care Update is designed for anesthesiologists in the clinical and laboratory setting who desire to improve development of anesthesiology teaching methods by engaging in an interchange of ideas as represented in this meeting.

Needs Assessment

Topics for this meeting were derived from 2011 meeting evaluations and previous annual meetings. Suggested topics were discussed and developed by educators who attended previous Annual and Board meetings and by other authorities in the field of Anesthesiology.

Faculty Disclosure

The American Society of Anesthesiologists and Society of Critical Care Anesthesiologists adhere to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosures of faculty and commercial relationships will be made known at the activity. Speakers are required to openly disclose any limitations of data and/or any discussion of any off-label, experimental, or investigational uses of drugs or devices in their presentations.

Participation in the SOCCA 25th Annual Meeting

Attendance shall be open to all health practitioners, provided that they have registered for the meeting. CME credit will only be offered to M.D.s, D.O.s or equivalent. A completed Physician Verification of Attendance form must be turned in to SOCCA at the conclusion of the meeting. The form will be available on-site.

Educational Format

CME activities include the following formats: plenary sessions, lectures, moderated poster discussions, and skill-set workshops.

Accreditation Statement and Credit Designation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American Society of Anesthesiologists and the Society of Critical Care Anesthesiologists. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians.

Pre-Meeting Workshop “Critical Care Ultrasound Workshop” (Thursday)

The American Society of Anesthesiologists designates this live activity for a maximum of *9.0 AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only credit commensurate with the extent of their participation in the activity.

SOCCA Annual Meeting and Critical Care Update (Friday)

The American Society of Anesthesiologists designates this live activity for a maximum of *6.0 AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Resolution of Conflicts of Interest

In accordance with the ACCME Standards for Commercial Support of CME, the American Society of Anesthesiologists and the Society of Critical Care Anesthesiologists will implement mechanisms, prior to the planning and implementation of this CME activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

Disclaimer

The information provided at this CME activity is for continuing education purposes only and is not meant to substitute for the independent medical/clinical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition.

Commercial Support Acknowledgement

This CME activity is supported by educational grants. A complete list of supporters will be published in the program syllabus.

7:45 a.m. - 5:30 p.m.

Renaissance Washington DC Downtown Hotel

SOCCA will be conducting a full-day critical care ultrasound workshop utilizing hands-on training with live models, simulators, and state-of-the-art ultrasound equipment from several companies. This course is designed to teach the participant the fundamentals of critical care ultrasound including: standard ultrasound views for the Focused Assessed Transthoracic Echo (FATE) exam, use of ultrasound in hemodynamically unstable patients, pleural ultrasound as well as rescue transesophageal echo. The course will also utilize an audience response system for multiple case discussions and clinical decision making scenarios. *(Limited to 40 registrants)*

Learning Objectives

Upon completion of this workshop the participants should be able to:

1. Review current experience and literature regarding the use of ultrasound for the intraoperative and ICU management of critically ill patients and those undergoing high risk surgery;
2. Review and discuss the use of transthoracic ultrasound in perioperative cardiac evaluation, including ventricular volume and function, and valvular function;
3. Review and discuss the use of transthoracic ultrasound in thoracic assessment, including pleural effusions and pneumothorax;
4. Develop technical facility with the use of ultrasound for vascular access, cardiac evaluation, trauma, and thoracic assessment.

Meeting Schedule

Annual Meeting Learning Objectives

Upon completion of this learning activity participants should be able to:

- Discuss the role of early mobilization in improving outcomes for critically ill patients.
- Review strategies to enhance cost effectiveness in the delivery of critical care.
- Recognize the possible advantages and disadvantages of employing non-physician providers in the intensive care unit.
- Discuss current controversies in providing palliative care for patients in the intensive care unit.
- Review the practical legal aspects and process of a malpractice case related to the care of a critically ill patient.
- Discuss significant advances in the evolution of critical care practice over the past 25 years including mechanical ventilation, hemodynamic monitoring and staffing of intensive care units.

“Perioperative Respiratory Complications: The New Frontier”
Sunday, October 14, 2012, 7:00 - 8:15 a.m.
Convention Center - 207B

Objectives

Upon completion of this learning activity, participants should be able to:

1. Review existing evidence on the epidemiology and risk factors for perioperative pulmonary complications;
2. Identify and discuss optimal strategies for managing and monitoring respiratory function during the perioperative period;
3. Examine critical clinical decision making with respect to postoperative intubation/ICU management and perioperative outcomes.

When compared to cardiac complications, perioperative respiratory complications are less frequently addressed. With an aging patient population and a rising incidence of lung diseases such as COPD, respiratory complications play an increasing role in perioperative care. This panel will address current evidence with respect to the epidemiology of perioperative respiratory complications, examine preoperative risk factors and risk modification for reducing perioperative respiratory function, discuss strategies for optimizing intraoperative respiratory function, and evaluate evidence-based approaches to postoperative respiratory care including the decision to extubate.
